## Guests of Living Bridges Talk

### **Servane Mouazan – OGUNTE network**

"I love helping women social innovators to be more influential and better connected. I have founded Oguntê and the Global Tribal Network, to prove that women can solve pressing social & environmental issues and create commercial opportunities at the same time, when given more skills and space to do so. highlight and the mission of our organisation."

### **Jennifer Sertl – Agility3R**

Jennifer Sertl is a thought leader in the emerging field of corporate consciousness - the convergence of neuroscience and existential Philosophy fostering inspiration and subsequently creating strategic advantage and enhancing value. She is an internationally respected author, keynote speaker and the president and founder of Agility3R.

### **Slavica Bogdanov - Wechangeworlds**

Slavica Bogdanov will be speaking about the launch of wechangeworlds.com, a website dedicated in broadcasting worldwide good news about children making a difference. Its mid term goal is to open the minds of parents to let their children be leaders of world change and innovation and increase consciousness about animal protection (we are all the same "children"). The long term goal is to facilitate world communication between children who want to make a difference and help them get organized both globally and locally.

### **Philippe Greier – Playmakers Industries**

Presente! is a global movement. Philippe is part of it. We are a bunch of enthusiastic superheros from 14 countries traveling to play an education (r)evolution. We play for higher inclusion and a stronger participation of our younger and older generations. We love unconventional approaches and crazy adventures by following that playful mindset we experience different ways of the next generation in education in order to explore different ways to solve our daily challenges.

### **Giorgio Bertini**

Founder and Director at Learning Change Project ... on action learning systemic change. Supporting self-organized small groups into discovery and dialogical action learning, with a free and open access to a large 8 blogs library, developed during 7 years working on action oriented research within a large set of disciplines, needed to understand changes in our complex world, going into the weaving of society, culture, critical thinking, complexity, systems, rhizomes, networks, self-organization, creativity, innovation, sustainability, futures, and much more.

### **Kevin O'Malley and Christie Dames – Techtalk studio**

#### **- Kevin O'Malley**

With an international background in cross-cultural communications and linguistics, Kevin applies unique training and coaching skills and partnership building to the world of corporate speaking and events. His approach successfully brings disciplines such as deconstruction and semiotics into executive development and face to face interactions with targeted audiences.

#### **- Christie Dames**

As founder and developer of the Niehaus Ryan Wong, Inc. Speakers Bureau, Dames created the first speakers bureau ever dedicated to strategically placing leaders and visionaries before rapidly growing audiences in the new and evolving technology arena. Her vision opened new doors in the conference industry by bringing tech speakers to the forefront through innovative settings, in-depth research methods, creative collateral materials, broad-based audience appeal and strategic speaker development.

## Details

Workshop about exploring experiences and possibilities for vital local societies as a start for the upcoming *Glocal Future conference* in April 2013.

Local initiatives - global effects
